Fifty Thousand People at Ottumwa to Hear the Tariff Expounder. OTTUMWA, Ia., Sept. 23 .- There was the greatest outpouring of Republicans to greet McKinley at the Coal palace, to-day, since Grant's last visit to the State. Twentyfive crowded excursion trains from all parts of lowa arrived, supplemented by the regular trains, and all crowded to their utmost. Fully fifty thousand people were on the streets of the city during the monster procession, and the entire marching force, numbering thousands, carried corn-stalk canes, and wore American tin-plate Ohio badges. Nebraska Republicans. LINCOLN, Neb., Sept. 23.-The Republican State convention meets in this city tomorrow to nominate one caudidate for Justice of the Supreme Court, two candidates for the regent of the State University, and to promulgate a platform which they hope may so reflect the better judgment of the Republicans of the Nation as to become the basis for the platform of the Presidential convention of 1892. The medicine men of the party are in a powwow behind closed doors to-night, and in the vernacular of a Nebraska politician. whose correspondence has passed into history, they will "make medicine before morning." Polygamy Dying Out.

CHICAGO, Sept. 23. - Ex-United States Senator Alvin Saunders, of Nebraska, is in the city attending the annual meeting of the National Utah Commission. "The year's report of the Utah Commission will be of particular interest to those who have studied the Mormon problem," said Senator Saunders. "The members of the commission have just returned from a two months' investigation in Utah, and we shall be glad to be able to note in our report to the President that polygamy is gradually dying out in the Territory. I will not say that the law has been completely successful in stamping out polygamons practices, but it has done far more in that direction than any of us expected could be done when the law was enacted. The Mormons are beginning to recognize that instead of wag-ing war with the gentiles of Utah alone in support of their doubtful religious tenets. they have on their hands an unequal fight against the opinions of the 65,000,000 of people in the United States."

Newspaper Reporters Still Engaged in the Work of Making Appointments. Special to the Indianapolls Journal.

The President has not yet been consulted about these appointments. The gun was fired in salvos of five rounds each, the first being delivered in twenty-six seconds, the second in twenty-two seconds and the third in seventeen seconds. This rapidity of fire is unprecedented. The first of the ten-inch guns for the gun-boat Monterey, fitted with the Dashiell system of breech machinism, and the first mount for this caliber, which was designated by the Bureau of Ordnance, and which is to be installed on board that vessel, was also tested at the Indian Head proving ground.
